

CHANGE THE NARRATIVES!

WE ARE NOT SURVIVORS, WE ARE THE NEW ERA OF CHANGEMAKERS!

Problem- Our world is changing faster than ever before. The needs of our societies are changing and young people today urgently need new skills to navigate this complex, Unpredictable world. We need to ask young people- What do they need most to thrive in the 21st Century?

Solution- Young people today need support systems that understand them, listen to them, help them wade through this complexity and help them thrive. They need support system that will help them overcome challenges and change the script of their lives.

"Change the Narrative" will provide and create innovations for young people to look at work in dialogue with each other, to shape the approaches and to present their challenges, struggles, issues, concerns, ideas, Innovations, ongoing opportunity for youths and opening up their perspective of being youth. Through Change the Narrative young people will come together at one platform and bring their collective energy, creativity and vision to the Forum, through debate and discussion, they draw up a list of recommendations for action, reflecting the most pressing needs and concerns of youth today in 21st century.

Market-size- There are more than 600 Million youths in the world and around 52% of India's population are youth. Our Challenge is we have many number of Young people with us, But need funding opportunity to provide them a platform to learn.

- Some quotes made by our young people-
- 1)"The Future belongs to we young people, Our voices can make this World a better place to live"
 - 2)"Usually things left free are considered for granted, remember the world is not only for human..."
 - 3)"We are not survivors we are the new Era of Change makers!"
