

Prosperity Through Education

Mihandzu is a non-profit organisation focused on providing educational support to school learners in vulnerable communities within South African townships and rural areas. We primarily focus on IT and mathematics education

What We Do

Our organisation is focused on improving the poor Mathematics Performance in schools from vulnerable communities and further increasing exposure to technology for learners in these communities who have not had prior access and exposure.

Solution for Change

- Maths After school programme
- IT After School Programme
- Learning Centre at partner school to allow continuous access to IT and allow independent online learning for maths

Resources

We are able to perform our activities through:

- Donations in cash and in-kind
- Volunteers offering their time to tutor learners
- Grants offered by partner organisations

IT Programme Outcomes

- Increased computer literacy across all beneficiaries
- Ability to understand basic code
- Develop simple websites
- Pass rates increased by 10%

Math Programme Outcomes

- Pass rates increased by 10% for new entrants into the programme
- 80% increase in the number of learners taking mathematics as a subject in partner school

Beneficiary Reach

- Engage 300 beneficiaries per annum in maths support programme (Grade 8 -10)
- Engaged over 50 beneficiaries in the past 3 years (Grade 10-11) in IT programme
